February MMXVII Newsletter

The HNW is going very well. Lots of great work is being done and we are making steady progress in all areas. The Good News is that we are over half way through the HNW. The Challenging News is that we all need to stay focused and dedicated. Thank you for helping your child have the time, quiet space and focus to get the mountains of work completed. If you'd like pointers about your child's work or how you can more support him/her, please ask any classroom teacher.

Spring Parents' Week is March 7th - 10th. It is a great idea to start thinking of projects and time slots. The Sign Up Sheet will be posted later this month. Even if you are not in town during that week, you still need to have someone cover your obligation. We always have some suggestions to offer about projects that work well, as well as information about who is available for hire if needed.

Spring Dates:

Spring Break is from March 11th - 20th. We return to school on March 21st. The final school day of the year is Friday, May 26th.

Lunches are collectively looking better than ever, lots of healthy food in great reusable containers, less trash blowing around the campus. Thank you for contributing to the good habits of nutrition and ecology. Remember to keep an eye on the Lost and Found for any containers that might belong to your family.

Registration Forms need to be signed and turned in by those families wishing to return to Fayette for the 2017-18 school year. The \$300 deposit may come at a date to be named later. We hold spaces only for families who have committed to return next year, be that verbal or written. Please chat with me about any concerns in regards to the coming year. We have sent Registration Forms by pdf to your inbox and they are also available in the office.

We spend long hours with students each week and delight in the growth they exhibit. We love to have parents sitting in on class-times and dropping by to see what their children are experiencing here on a daily basis. Many of our students will move up a class next year. Consider making a visit to the next class your kiddo will be part of. If you are curious about how your child is progressing, please check with the appropriate classroom teacher or me before or after school or e-mail anytime. Thank you.
